

IN REPLY REFER TO:

United States Department of the Interior

BUREAU OF RECLAMATION
PO Box 25007
Denver, Colorado 80225-0007

April 25, 2005

From: Tony L. Wahl
Hydraulic Engineer
U.S. Department of the Interior
Bureau of Reclamation

To Whom It May Concern:

The Coanda-Effect Screen analysis software written and produced by me and available to the public at http://www.usbr.gov/pmts/hydraulics_lab/twahl/coanda/index.html is in the public domain and can be used freely by all who would benefit from its use. Users may not reverse-engineer or modify the source code. Users may distribute the software freely to others, but should always provide recognition of its original source when doing so. Although this software has been extensively tested to eliminate errors and inaccuracies, the author and the Bureau of Reclamation cannot guarantee the fitness of this software for any particular purpose.

When citing this software, the recommended publication citation is:

Wahl, Tony L., 2001, "Hydraulic Performance of Coanda-Effect Screens". *Journal of Hydraulic Engineering*, Vol. 127, No. 6, pp. 480-488.
